# Our Trees, Our Future: A Sustainable Legacy

Trees are integral to Savannah's identity. They are community assets that shade our common spaces, cool air temperatures, absorb stormwater, sequester carbon, support tourism, boost property values, and much more!

## What is Savannah without our trees?

Savannah Tree Foundation protects and grows our urban forest so that our community and all future generations can enjoy the numerous benefits of trees.

## Please join us in support of Savannah's trees!

**Customized sponsorship packages are available.**

Contact Zoe Rinker for more information.
